The reply filed on July 30, 2007, is not fully responsive to the prior Office Action because of the following omissions or matters:

The amendment is objected to under 37 CFR 1.121(c)(4)(i): the claim text of canceled claim 1 must *not* be presented. Portions of the specification amendment are objected to under 37 CFR 1.121(b)(1)(ii) in that certain changes are not been accurately indicated with underlining and strike-through. New claim 13 appears to positively recite the lens assembly itself, as opposed to the lens assembly merely appearing in the context of functional or "intended use" language, as in canceled claim 1, line 1. The Applicant must therefore specifically point out the support for the blank having an optical lens assembly (prior to the blank being machined to a desired optical curvature or curvatures) and the support for the other limitations of new claim 13 (MPEP §§ 714.02 and 2163.06).

Attention is directed to 37 CFR 1.111. Since the above-mentioned reply appears to be *bona fide*, applicant is given **ONE (1) MONTH or THIRTY (30) DAYS** from the mailing date of this notice, whichever is longer, within which to supply the omission or correction in order to avoid abandonment. **EXTENSIONS OF THIS TIME PERIOD MAY BE GRANTED UNDER 37 CFR 1.136(a).**

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Dave Willse, whose telephone number is 571-272-4762 and who is generally available Monday, Tuesday, and Thursday, and sometimes on Wednesday. If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Corrine McDermott, can be reached on 571-272-4754. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
